

OO Code Review Report

Brief Report of Processed OO Code:

Date	19-05-2022
Content Pack	WBC_UC_ProgressDraw
Flow Count	113
System Properties	78
System Accounts	1
Error Count	1566
Warning Count	1852

Detailed Report of Error Found in Flow Steps:

* Blank column denotes value is **not assigned** to variable.

Flow Step	Variable Type	Variable Name	Assign From (*)	Default Value	Remarks
Valid Attachment	Input Variable	emailID			Variable is defined but not assigned
Move Email to Unverified Folder	Input Variable	markAsRead		true	Variable is defined but not assigned
Check Valid Subject	Input Variable	matchType		Contains	Variable is defined but not assigned
Check Valid Subject	Input Variable	ignoreCase		true	Variable is defined but not assigned
Check Approved Sender	Input Variable	matchType		Regex	Variable is defined but not assigned
Check Approved Sender	Input Variable	ignoreCase		true	Variable is defined but not assigned
Save Attachment to NAS	Input Variable	tempDir		\${WBC/Utility Operations/Global_V1.00/external Dependency}\\${WBC/Usecases/ProgressDraw_V1.00/automationNAS }	Variable is defined but not assigned
Progress Draw Process Phase	Input Variable	runID		\${run_id}	Variable is defined but not assigned
Email Support	Input Variable	runID		\${run_id}	Variable is defined but not assigned
Set flagEmailUnVerified as True	Input Variable	keyName		flagEmailUnVerified	Variable is defined but not assigned
Set flagEmailUnVerified as True	Input Variable	myValue		True	Variable is defined but not assigned
check flagEmailUnVerified==True	Input Variable	matchType		Exact Match	Variable is defined but not assigned
check flagEmailUnVerified==True	Input Variable	ignoreCase		True	Variable is defined but not assigned

Email Support	Input Variable	runID		\${run_id}	Variable is defined but not assigned
Email Support	Input Variable	flowName		ProgressDraw Subflow Check Email	Variable is defined but not assigned
Set flagSystemError as True	Input Variable	keyName		flagSystemError	Variable is defined but not assigned
Set flagSystemError as True	Input Variable	myValue		True	Variable is defined but not assigned
Set flagSystemError as True	Input Variable	keyName		flagSystemError	Variable is defined but not assigned
Set flagSystemError as True	Input Variable	myValue		True	Variable is defined but not assigned
Set flagSystemError as True	Input Variable	keyName		flagSystemError	Variable is defined but not assigned
Set flagSystemError as True	Input Variable	myValue		True	Variable is defined but not assigned
Iteratorate document	Input Variable	separator		,	Variable is defined but not assigned
attachment paths	Input Variable	keyName		emailAttachments	Variable is defined but not assigned
attachment paths	Input Variable	delimiter		,	Variable is defined but not assigned
Iteratorate document	Input Variable	separator		,	Variable is defined but not assigned
Set ROI	Input Variable	xpathQuery		/roi/value[@outcome='fallout']	Variable is defined but not assigned
Set ROI	Input Variable	xpathQuery		/roi/value[@outcome='withdrawn']	Variable is defined but not assigned
Set ROI	Input Variable	xpathQuery		/roi/value[@outcome='complete']	Variable is defined but not assigned
Flow Inputs	Input Variable	threads			Variable is defined but not assigned
Flow Inputs	Input Variable	delimiter		,	Variable is defined but not assigned
Flow Inputs	Input Variable	emailRemaining			Variable is defined but not assigned
Generate Runs XML	Input Variable	runName		Progress Draw - \${emailSubject}	Variable is defined but not assigned
Generate Runs XML	Input Variable	input		emailID	Variable is defined but not assigned
Generate Runs XML	Flow Output Variable	runsXML	Result: runsXML	N/A	Flow Output variable created in flow steps
Input Config	Input Variable	fullPath		\${basePath}\emailAttachments\input	Variable is defined but not assigned
Get Email IDs from Inbound Folder	Flow Output Variable	emailIds	Result: emailIds	N/A	Flow Output variable created in flow steps
Iterate Emails	Input Variable	separator		,	Variable is defined but not assigned
Get Email	Input Variable	emailId	emailId		Input variable is using Prompt User

List Appender	Input Variable	keyName		emailSubjects	Variable is defined but not assigned
List Appender	Input Variable	delimiter		,	Variable is defined but not assigned
List Appender	Flow Output Variable	emailSubjects	Result Field: returnResult	N/A	Flow Output variable created in flow steps
Attach time stamp to attachment filename	Input Variable	newFilePath		\${threadWorkspace}\\${attachmentName}	Variable is defined but not assigned
Error : failure	Input Variable	flagSystemError		True	Variable is defined but not assigned
check if attachment ID is null or not	Input Variable	keyName		attachmentIds	Variable is defined but not assigned
check if attachment ID is null or not	Input Variable	trimSpaces		false	Variable is defined but not assigned
Iteratorate document	Input Variable	separator		,	Variable is defined but not assigned
extension is .xls or .xlsx?	Input Variable	toCheck		.xls	Variable is defined but not assigned
Read Success?	Input Variable	string2		NoError	Variable is defined but not assigned
Read Success?	Input Variable	ignoreCase		true	Variable is defined but not assigned
valid attachment?	Input Variable	keyName		id	Variable is defined but not assigned
valid attachment?	Input Variable	trimSpaces		True	Variable is defined but not assigned
Get Attachment	Input Variable	authType		ntlm	Variable is defined but not assigned
Get Attachment	Input Variable	keepAlive		true	Variable is defined but not assigned
